

be removed from the quarantine premises except in compliance with all State and local regulations.

**§ 93.415 Manure from quarantined ruminants.**

No manure shall be removed from the quarantine premises until the release of the ruminants producing same.

**§ 93.416 Appearance of disease among ruminants in quarantine.**

If any contagious disease appears among ruminants during the quarantine period special precautions shall be taken to prevent spread of the infection to other animals in the quarantine station or to those outside the grounds. The affected ruminants shall be disposed of as the Administrator may direct, depending upon the nature of the disease.

**§ 93.417 Import permit and declaration for ruminants.**

(a) For ruminants intended for importation from Canada, the importer shall first apply for and obtain from APHIS an import permit as provided in § 93.404: *Provided*, That an import permit is not required for ruminants offered for entry at a land border port designated in § 93.403(b) if such ruminant is:

- (1) A wether;
- (2) A sheep or goat imported for immediate slaughter; or
- (3) A ruminant other than a sheep or goat and that ruminant:
  - (i) Was born in Canada or the United States, and has been in no region other than Canada or the United States, or
  - (ii) Has been legally imported into Canada from some other region and unconditionally released in Canada so as to be eligible to move freely within that region without restriction of any kind and has been in Canada after such release for 60 days or longer.

(b) For all ruminants offered for importation from Canada, the importer or his or her agent shall present two cop-

ies of a declaration as provided in § 93.407.

**§ 93.418 Cattle from Canada.**

(a) *Health certificates.* Except for cattle imported for immediate slaughter in accordance with § 93.420, cattle intended for importation from Canada shall be accompanied by a certificate issued in accordance with § 93.405(a). The certificate shall state that the cattle have been inspected and found to be free from any evidence of communicable disease and that, as far as can be determined, they have not been exposed to any such disease during the preceding 60 days. Cattle found unqualified upon inspection at the port of entry will be refused entry into the United States.

(b) *Tuberculin-test certificates.* (1) Cattle from Canada from a herd in which any cattle have been determined to have tuberculosis shall not be imported into the United States.

(2) Except for cattle prohibited from importation under paragraph (b)(1) of this section, cattle from Canada may be imported into the United States if:

- (i) The cattle are imported for slaughter in accordance with § 93.420 of this part; or
- (ii) The cattle are accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian Government showing:
  - (A) That the cattle are from a tuberculosis-free herd; or
  - (B) The date and place the cattle were last tested for tuberculosis; that the cattle were found negative for tuberculosis on such test; and that such test was performed within 60 days preceding the arrival of the cattle at the port of entry; or
  - (C) That the cattle are at least five days but not more than four weeks of age and, therefore, exempt from the tuberculosis testing requirement; or
  - (D) For a calf imported with its dam, the date and place the calf's dam was last tested for tuberculosis; that the dam was found negative for tuberculosis on such test; that such test was performed within 60 days preceding the arrival of the calf and dam at the port

<sup>7</sup>Importations from Canada shall be subject to §§ 93.417 to 93.421, inclusive, in addition to other sections in this part which are in terms applicable to such importations.

of entry; and that the calf was born after such test was performed.

(c) *Brucellosis test or vaccination certificates.* (1) Cattle from Canada from a herd in which any cattle have been determined to have brucellosis may not be imported into the United States;

(2) Except for cattle prohibited from importation into the United States under paragraph (c)(1) of this section, cattle 6 months of age or older from Canada may be imported into the United States if the following conditions are met:

(i) The cattle are imported for slaughter in accordance with §92.420;

(ii) The cattle are steers; or

(iii) The cattle are accompanied by a certificate issued or endorsed by a salaried veterinarian of the Canadian government showing:

(A) That the cattle are from a brucellosis certified-free herd, province, or territory; or

(B) The date and place the cattle were last tested for brucellosis; that the cattle were found negative for brucellosis on such test; and that such test was performed within 30 days preceding the arrival of the cattle at the port of entry; or

(C) That the female cattle under 18 months of age were vaccinated against brucellosis in accordance with Canadian regulations.

(d) The certificates prescribed in paragraphs (b) and (c) of this section shall state:

(1) The names of the consignor and the consignee;

(2) A description of the cattle to be imported, including the breed, ages, markings, and tattoo and eartag numbers of each animal;

(3) The dates and places of each test required by paragraphs (b) and (c) of this section; and

(4) The date of vaccination, dosage of vaccine used, and the age of each animal on the date of vaccination for each vaccination conducted in accordance with paragraph (c)(2)(ii)(C) of this section.
